Discussion

- Multiple outreach and required steps were completed through public meetings to ensure the proposed changes do not affect industrial users. There will be no cost or level of effort required for the City's municipal users. The modification to the limits that are associated with industrial discharges will not affect the estimated 19 permitted industrial users. The modification is a very slight increase to two parameters. The modification is needed due to a new discharge permit issued from the state to the City. (**Shelton/McCall**)

Motion (Smith/Morris): To adopt the Ordinances Consent Agenda as recommended.

Bushong displayed the following title(s):
