**TITLE:**

Code Text Amendment: Stormwater Runoff in New Developments

**SUMMARY RECOMMENDATION:**

Amend Title 19, Chapter 192 of the Yuma City Code, to update Stormwater Runoff in New Developments code language to be in compliance with current requirements and processes. (Engineering) (Jeffrey A. Kramer)

**STRATEGIC OUTCOME:**

This action supports City Council's strategic outcome of Respected and Responsible by bringing the Stormwater Runoff in New Developments code up to date.

**REPORT:**

**Clerk's Note:** A motion was made at the 7/21/2021 RCM to amend Ordinance No. O2021-021 at § 192-04(F) to add the following language after the words 18-inches "or as approved by the City Engineer" as well as removing the strikethrough under (C). The ordinance was introduced as amended.

Upon routine review of the Yuma City Code (Code) staff discovered a variety of items to be updated to correct typographical/editorial errors and to bring aspects of the Code up to date. Chapter 192, Stormwater Runoff in New Developments, was reviewed as part of the process of keeping the City's stormwater compliance requirements current with the City's permit and processes.

The changes proposed update references to current information, allow greater flexibility in stormwater system design, decrease the length of time standing water may remain in retention basins in compliance with health department recommendations to reduce the possibility of mosquito breeding and water stagnation, and make other minor editorial corrections.
