

STAFF REPORT TO THE PLANNING AND ZONING COMMISSION
DEPARTMENT OF PLANNING AND NEIGHBORHOOD SERVICES
COMMUNITY PLANNING
CASE TYPE – GENERAL PLAN AMENDMENT
Case Planner: Erika Peterson

Hearing Date: October 13, 2025

Case Number: GP-44277-2025

Project Description/Location: This is a Minor General Plan Amendment request by Jose Salazar, on behalf of Nextgen Properties, LLC, to change the land use designation from Mixed Use to High Density Residential for approximately .48 acres, for the property located at the southwest corner of 17th Street and Madison Avenue, Yuma, AZ.

	Existing Zoning	Use(s) on-site	General Plan Designation
Site	Light Industrial (L-I)	Undeveloped	Mixed Use
North	Light Industrial (L-I)	Undeveloped, Mechanic Shop, Cabinet Shop	Commercial
South	Light Industrial (L-I)	Funeral Home	Mixed Use
East	Light Industrial (L-I) and Low Density Residential (R-1-6)	Single-family homes	Low Density Residential
West	Light Industrial (L-I)	Gymnasium	Mixed Use

Location Map

Prior site actions: Annexation, Ord. 672, effective July 21, 1956; Rezoning C14-60-8 (D) Original zoning to Industrial "A", Z80-23 Ord.1979 Industrial A to Light Industrial; CUP-CU89-18, Conditional Use to allow used car sales in a Light Industrial District; CUP-3072-2013 Conditional Use permit to allow a parking lot as primary use in Light Industrial; LOTS-27418-2019, CrossFit Yuma Lot Tie/Lot Split creating Lot 1 and Lot 2.

Staff Recommendation: Staff recommends the Planning and Zoning APPROVE the request to change the land use designation for approximately .48 acres from Mixed Use to High Density Residential.

Suggested Motion: Move to APPROVE the request to change the land use designation for approximately .48 acres from Mixed Use to High Density Residential.

Staff Analysis: This is a Minor General Plan Amendment request by Jose Salazar, on behalf of Nextgen Properties, LLC, to change the land use designation from Mixed Use to High Density Residential for approximately .48 acres, for the property located at the southwest corner of 17th Street and Madison Avenue, Yuma, AZ.

The existing Mixed Use land use designation supports the following types of zoning: Low Density Single-Family Residential (R-1-5 and R-1-6), Medium Density Residential (R-2 and R-2-5), Residence-Manufactured Housing (R-MH), Manufactured Housing Subdivision (MHS), Transitional (TR), Limited Commercial (B-1), and Industrial Park (I-P) districts.

The proposed High Density Residential land use designation supports the following types of zoning: High Density Residential (R-3), Residence-Manufactured Housing (R-MH), Recreational Vehicle Subdivision (RVS) and Manufactured Housing Park (MHP) districts.

The applicant's intent in changing the land use designation is to pursue a rezoning of the site to High Density Residential (R-3) to allow the development of multi-family units.

A neighborhood meeting was held on-site on August 7, 2025. There were many neighbors in attendance who were in opposition of the request. Some expressed their concern regarding the potential denial of future conditional use permits for industrial zoned properties adjacent to residential development. Other concerns were relating to traffic, parking and noise.

During the meeting staff informed the neighbors that any new industrial building or activity permitted in the Light Industrial Zoning District may be located less than 600 feet from a residential zoning district and residential use provided such building or activity is granted a conditional use by the Planning and Zoning Commission. For example, the existing adjacent gym and mortuary went through respective CUP approvals in 2013 and 2015. The neighborhood already features a mix of residential and industrial zoning and uses. The residential block to the east of the subject property has recently been the subject of numerous requests to rezone to Low Density Residential (R-1-6) zoning to reflect the actual use of the properties.

Density

The current land use designation of Mixed Use would allow from 2 to 5 dwelling units to be constructed on .48 acres.

The proposed High Density Residential land use designation would allow 6 to 14

dwelling units to be developed.

Population

Information from the 2023 American Community Survey provides data on population by housing unit type. The information results in an average household size for multi-family homes of 1.8 persons per dwelling in the City of Yuma. Comparing the densities allowed within the General Plan, the potential persons expected are:

- Mixed Use:
 - Minimum 2 homes – Expected population: 4
 - Maximum 5 homes – Expected population: 9
- High Density Residential:
 - Minimum 6 homes – Expected population: 11
 - Maximum 14 homes – Expected population: 25

The 2020 Census identified that 20% of the population within the City of Yuma was between 5 and 17 years of age. Therefore, the expected school-age population is estimated at:

- Mixed Use:
 - Minimum expected population: 4 – School Age: 1
 - Maximum expected population: 9 – School Age: 2
- High Density Residential:
 - Minimum expected population: 11 – School Age: 2
 - Maximum expected population: 25 – School Age: 5

Transportation

The property is located on the southwest corner of 17th Street and Madison Avenue. Vehicle access to the property will be from Madison Avenue, a Local Road with the nearest Collector on 1st Avenue.

There is an existing bus stop at 4th Avenue and 16th Street, Green Route 4A, and an existing bike route on 1st Avenue to the north and proposed bike route to the south.

The City of Yuma Transportation Master Plan identifies Madison Avenue and 17th Street as Local Streets and 1st Avenue as a Collector Road. According to the City of Yuma Transportation Master Plan, 1st Avenue operates at a Level of Service (LOS) of C or above, meaning that there are stable conditions with movements somewhat restricted due to higher volumes but not objectionable to motorists. The Yuma Metropolitan Planning Organization identified an average annual daily traffic count at 1st Avenue near 18th Street as 4,621 in 2024.

Recreation

The Recreation Element of the City of Yuma 2022 General Plan outlines a well-developed network of recreational areas and public sites, including a detailed inventory of existing park facilities throughout the City. Among these, neighborhood parks play a vital role by offering accessible, localized spaces for informal recreation and open space activities. These parks typically support field games, court sports, walking and jogging paths, and picnic areas serving the immediate needs of surrounding residential communities. Joe Henry Optimist Park, located just south of the subject property and within walking distance, is one such neighborhood park that provides a range of recreational amenities for nearby residents.

Housing

The Housing Element of the City of Yuma 2022 General Plan addresses the need to provide safe, decent, sanitary, and affordable housing for all residents. Objective 1.3 encourages providing a variety of housing types:

Objective 1.3: Encourage a variety of housing types to meet all socioeconomic segments of the population, considering both full time and seasonal residents.

An Action Item of the Housing Element is to consider rezoning land for higher density residential development to promote additional rental and lower cost ownership options.

The current zoning designation of Light Industrial does not permit the development of any residential dwellings. The current zoning is not in conformance with the current land use designation of Mixed Use. However, the current Mixed Use land use designation does permit zoning districts that allow residential development such as Low and Medium Density Residential. In addition, the Manufactured Housing Subdivision District and Residence-Manufactured Housing District are permitted zoning districts within the Mixed Use land use designation.

Public Services

It is a requirement of State Statute for a General Plan to identify public schools and other public buildings. The City of Yuma General Plan Public Services Element identifies the location of public/charter schools within the three school districts in the General Plan area.

The subject property is within the boundaries of Yuma Elementary School District One and Yuma Union High School District. According to the Yuma Elementary School District One Boundary Map, the elementary students in the subject area are within the boundary of C W McGraw Elementary School at 2345 S. Arizona Avenue. Junior high school students are within the boundary of Gila Vista Junior High School located at 2245 S. Arizona Avenue. According to the Yuma Union High School District, the high school students are within the boundary of Kofa High School located at 3100 S. Avenue A. In addition, the subject property is also near Harvest Preparatory Academy, a charter school located at 350 E. 18th Street.

Redevelopment

The Redevelopment Chapter of the General Plan emphasizes conservation, rehabilitation, redevelopment, neighborhood preservation, and revitalization efforts. Designated Revitalization Areas are blighted areas that are primarily residential in character, often defined by strong family ties and a history of long-term, multigenerational residency. The subject property is located within the Mesa Heights Revitalization Area, aligning it with the City's broader objectives for neighborhood reinvestment and community enhancement.

Growth Areas

The Growth Areas chapter identifies those parts of the Planning Area ideal for a concentration of a variety of land uses, including higher densities and intensities or uses. Equally essential is the need for growth to occur close to existing or planned public facilities and services.

The General Plan request is located within the Arizona Avenue and 16th Street Growth Area, which presents significant opportunities for infill development due to the presence of numerous vacant and underutilized properties. This area is well-supported by existing infrastructure, transportation networks, and commercial development,

making it well-positioned for strategic growth. New residential developments of high and medium density in this location would serve as an effective transitional buffer, separating the established residential neighborhoods to the south from the more intensive commercial and industrial uses located to the north and west.

An increase in residents in this area would enhance and strengthen the existing commercial development and transportation network. The YCAT bus system has several fixed routes through this area with a focus on the Yuma Mesa Shopping Center.

1. Does the proposed amendment impact any elements of the General Plan?

No. The elements of the General Plan will not be impacted by the proposed amendment.

Transportation Element:

FACILITY PLANS

Transportation Master Plan	Planned	Existing
17 th Street - Local Street	29 FT HW	30 FT HW
Madison Avenue - Local Street	29 FT HW	30 FT HW
1st Avenue – 2-lane Collector	40 FT HW	30 FT HW
Median Disclosure		

2. Does the proposed amendment impact any of the facility plans? No.

No. The change in land use will not significantly impact any of the facility plans.

3. Is the proposed amendment in conflict with Council's prior actions?

Yes. The 2022 City of Yuma General Plan land use designation for this area is Mixed Use.

Scheduled Public Hearings:

- ☒ City of Yuma Planning and Zoning Commission: October 13, 2025
☐ City of Yuma City Council: November 5, 2025

Public Comments Received: See Attachment A

Agency Comments: See Attachment B

Neighborhood Meeting Comments: See Attachment D

Final staff report delivered to applicant on:

- ☐ Applicant agreed with staff's recommendation:
☐ Applicant did not agree with staff's recommendation:
☒ Final report has been emailed to applicant on 9/25/2025 and awaiting response.

RE: CASE NUMBER GP-44277-2025 SWC of 17th St. & Madison Avenue Minor General Plan
Amendment - Mixed-Use to High Density Residential

Ladies and Gentlemen:

I am writing as the owner of Dennis Construction Company of Yuma, Inc., which operates on Light Industrial property directly adjacent to the site proposed for a land use amendment. I want to express my concerns regarding the request to change the designation from Mixed Use to High Density Residential for the property at the southwest corner of 17th Street and Madison Avenue.

Our business is a construction company that relies heavily on the flexibility afforded by Light Industrial zoning. On a daily basis, our operations involve significant tractor-trailer traffic, heavy equipment movement, and other industrial activities that generate substantial noise and vibrations. These are essential components of our business and are consistent with the zoning designation of this area.

The proposed amendment to High Density Residential zoning introduces a land use that is fundamentally incompatible with the nature of industrial operations. Residential developments often bring heightened sensitivity to noise, traffic, and other industrial impacts, which could lead to complaints and potential restrictions on our ability to operate effectively. This would not only harm our business but also disrupt the balance of land uses in the area.

It is important to recognize that Light Industrial zoning exists to support businesses like ours, which require operational freedom without the constraints of residential concerns. Introducing high-density housing adjacent to industrial properties risks creating unnecessary conflicts and undermines the purpose of this zoning designation.

I strongly urge the Planning and Zoning Commission and the Yuma City Council to carefully evaluate the long-term implications of this amendment. Protecting the integrity of Light Industrial zoning is critical to ensuring that businesses like Dennis Construction Company can continue to thrive and contribute to the local economy.

Thank you for considering my perspective. If you have any questions or need further information, please feel free to contact.

Sincerely,

Keith Dennis, President
Dennis Construction Company of Yuma, Inc.

RE: CASE NUMBER GP-44277-2025
Minor General Plan Amendment - Mixed-Use to High Density Residential
SWC of 17th St. & Madison Avenue

Dear Ms. Peterson,

As the owner of the shopping center commonly known as the Staples Center, located adjacent to the property in question, I am writing to express my concerns regarding the proposed amendment to change the land use designation to Mixed Use to High Density Residential for the site at the southwest corner of 17th Street and Madison Avenue.

The Staples Center is zoned B-2 Commercial and serves as a hub for retail, dining, and service businesses that rely on consistent customer traffic and a harmonious surrounding environment. The introduction of High Density Residential zoning adjacent to our property raises concerns about the potential impact on the commercial viability of the area.

Residential developments often bring challenges such as increased parking demand, traffic congestion, and heightened sensitivity to noise and activity levels. These factors could disrupt the flow of business operations and deter customers from visiting the shopping center. Additionally, the shift in land use may alter the character of the area, making it less attractive for future commercial investment and development.

The current Mixed Use designation provides a balanced approach that supports both residential and commercial activities, fostering a dynamic and complementary environment. Changing this designation to High Density Residential risks tipping the balance and creating conflicts between land uses that could negatively affect the businesses operating in the Staples Center.

I urge you, the Department of Development Services, the Planning and Zoning Commission and Yuma City Council to carefully consider the broader implications of this amendment and prioritize the long-term economic health of the area. Maintaining a land use designation that supports commercial activity is essential to ensuring the continued success of businesses like those in the Staples Center.

Please feel free to contact me if you have any questions or require further information.

Sincerely,

Donald Whitacre

RE: SWC of 17th St. and Madison Avenue Minor General Plan Amendment - Mixed-Use to High Density Residential - CASE NUMBER GP-44277-2025

Dear Staff Members, Zoning Commissioners, and Council Members:

As the owner of the property where CrossFit Yuma operates, I am writing to express my concerns regarding the proposed Minor General Plan Amendment request by Jose Salazar, on behalf of Nextgen Properties, LLC, to change the land use designation from Mixed Use to High Density Residential for the property located at the southwest corner of 17th Street and Madison Avenue.

Our property is zoned Light Industrial, and the activities conducted on-site are consistent with this designation. CrossFit Yuma operates as a high-energy fitness facility, with early morning classes starting at 5:30 AM that include loud music, weights being dropped, and members running around the building. Additionally, there are midday kids' classes and other activities throughout the day that generate significant noise and movement. These operations are integral to the business and align with the intended use of Light Industrial zoning.

More importantly, the proposed amendment to High Density Residential zoning for the adjacent property raises serious concerns about the **current** and **future** compatibility of our property as it relates to compliance with Yuma Code of Ordinance §§154-09.02(F)(1)(c) and (d), which provide as follows:

“(c) Distance from residential zoning district. Any industrial building or activity as may be permitted in the Light Industrial Zoning District shall be located a minimum distance of 600 feet from any residential zoning district and residential use, unless separated from said residential district and use by an arterial street, a state or federal highway, railroad right-of-way in use as such, or a designated truck route.

“(d) Exception. An industrial building or activity may be located less than 600 feet from a residential zoning district and residential use provided such building or activity is granted a conditional use by the Planning and Zoning Commission.”

Our property and the Nexgen property are not separated by an arterial road and, as such, the rezoning would immediately render the Panho property out of compliance as to any future LI uses. Moreover, Panho would be required to obtain a conditional use permit in order to conduct light industrial operations from the Panho property. Not only is this extremely unfair, but it is also clear, based upon the Yuma Code of Ordinances, that residential developments in close proximity to Light Industrial properties will result in immediate conflicts. In addition, residents may find the use, noise, odorous and activity levels disruptive, which will only serve to make rise to complaints and pressure to restrict or modify Panho's operations, thereby negatively impacting our business and the services we provide to the community, at no fault of Panho. Moreover, introducing High Density Residential

zoning next to Light Industrial properties undermines the purpose of industrial zoning, which is designed to accommodate businesses that require operational flexibility without the constraints of residential concerns. This amendment risks creating unnecessary friction between land uses and could hinder the long-term viability of the area as a hub for industrial and commercial activity.

For the above reasons, we respectfully urge the Planning and Zoning Commission and Council Members to carefully consider the potential negative impacts this amendment would have on existing businesses and the broader implications for land use compatibility in the area.

Thank you for your contemplative consideration to this matter and our concerns.

Respectfully,

RE: CASE NUMBER GP-44277-2025 SWC of 17th St. & Madison Avenue Minor General Plan
Amendment - Mixed-Use to High Density Residential

To Whom it My Concern:

I am writing on behalf of CrossFit Yuma, a gym located directly adjacent to the subject property, to express my opposition to the proposed Minor General Plan Amendment request by Jose Salazar, on behalf of Nextgen Properties, LLC, to change the land use designation from Mixed Use to High Density Residential.

Our gym operates on a property zoned Light Industrial, and our daily activities are consistent with this zoning designation. We host early morning classes starting at 5:30 AM, which involve loud music, weights being dropped on the floor, and outdoor physical activities. Additionally, we have a kids' class at 11:00 AM, which brings a lively and energetic atmosphere to the area. These activities generate substantial noise and movement throughout the day, which are typical for a business operating in a Light Industrial zone.

Changing the adjacent property's designation to High Density Residential would create significant conflicts between our operations and the proposed multi-family residences. Residents in high-density housing may find our noise levels disruptive, leading to complaints and potential restrictions on our ability to operate as we currently do. This could jeopardize the viability of our business and limit the services we provide to the community.

Furthermore, the introduction of residential zoning in close proximity to Light Industrial and Commercially zoned properties is inherently incompatible. Light Industrial and Commercial zoning is designed to accommodate businesses like ours, which require flexibility in operations without the constraints of residential concerns. High Density Residential zoning would undermine this purpose and create unnecessary friction between land uses.

I strongly urge the Planning and Zoning Commission and the Yuma City Council to consider the impact this amendment would have on existing businesses like CrossFit Yuma and the broader implications of introducing incompatible zoning in this area.

Thank you in advance for considering my strong concerns and for your attention to this matter.

Respectfully Submitted,

Kimberly Glenn

RE: CASE NUMBER GP-44277-2025
Minor General Plan Amendment – Mixed-Use to High Density Residential
SWC of 17th St. & Madison Avenue

Dear Ms. Ericka Peterson,

I am the owner of a commercial building at 299 W. 17th St, Yuma, AZ, 85364. I believe my present zoning is either Light Industrial or Heavy Industrial, as the zoning has changed over the years.

I am concerned about and object to the proposed rezoning from Mixed-Use to High-Density Residential for the property the subject of this application.

17th Street is and has always been a commercial area, not residential. The applicant's property is only one block South of 16th street the busiest street in Yuma. There are many businesses in this area. I do not recall any residences or apartments in this area. The Proposed Multi-Family Residential units in this area will increase the number of children playing on the Street, create a need for more playgrounds, increase traffic, increase cars parked on the Street, and increase pedestrian activity. Delivery trucks, customer vehicles and existing commercial operations will conflict with proposed Multi-Family residences and additional residential traffic. These conditions could easily discourage future tenants from leasing my commercial building, reducing the commercial viability and value of my property.

Maintaining the current Use designation ensures safe traffic flow, does not interfere with present businesses and protects property values and community safety.

Thank you for considering these important impacts.

Jim D. Smith, Property Owner

RE: CASE NUMBER GP-44277-2025
Minor General Plan Amendment - Mixed-Use to High Density Residential
SWC of 17th St. & Madison Avenue

Dear Ms. Peterson,

As the owner of Budgetel Inn & Suites, located adjacent to the property in question, I am writing to express my strong concerns regarding the proposed amendment to change the land use designation to Mixed Use to High Density Residential for the site at the southwest corner of 17th Street and Madison Avenue.

Our hotel serves a vital role in the community by providing affordable and accessible accommodations to travelers, families, and business guests. The success of a hotel depends heavily on maintaining a safe, accessible, and commercially viable environment that supports consistent guest traffic.

The introduction of High-Density Residential zoning adjacent to our property raises significant concerns about the negative impact it could have on our operations. Residential developments often bring challenges such as increased parking demand, traffic congestion, and heightened sensitivity to activity levels. These factors could discourage guests from staying at our property, disrupt hotel operations, and diminish the overall experience we strive to provide. Additionally, the shift in land use could alter the character of the surrounding area, making it less attractive for visitors and undermining the long-term sustainability of our business.

The current Mixed-Use designation strikes a necessary balance between residential and commercial activities, allowing both to thrive while complementing one another. By contrast, the shift to High Density Residential risks creating conflicts between land uses that would jeopardize not only the success of our hotel but also the broader commercial appeal of the area.

I respectfully urge the Department of Development Services, the Planning and Zoning Commission, and Yuma City Council to carefully consider the long-term economic implications of this amendment. Preserving a land use designation that supports hospitality and commercial activity is critical to ensuring the continued success of businesses like Budgetel Inn & Suites and to sustaining a vibrant and balanced community.

Please feel free to contact me if you have any questions or would like to discuss this matter further.

Sincerely,

Mason Valdo

RE: CASE NUMBER GP-44277-2025 SWC of 17th St. & Madison Avenue - Minor General Plan Amendment - Mixed-Use to High Density Residential

Dear Planning & Zoning Commissioners,

I am writing as a concerned neighbor and community member to respectfully oppose the proposed rezoning of SWC of 17th St. & Madison Avenue. My opposition is based on a number of concerns that could negatively impact the community, such as but not limited to:

- Traffic and pedestrian safety risks due to higher vehicle volume on already narrow or busy streets.
- Reduced visibility at intersections and driveways, making it more hazardous for drivers, cyclists, and pedestrians.
- Emergency access concerns, as overcrowded or blocked streets could hinder fire trucks, ambulances, and law enforcement from responding quickly.
- Increased risk of accidents from residents and visitors circling the area to find available parking.
- Obstructed views and diminished aesthetic character of the area caused by taller structures.
- Greater strain on local infrastructure and public services.
- Reduced privacy for neighboring properties due to the height and density of the buildings.
- Increased noise and activity levels that will impact the quality of life for current residents.
- Potential decline in property values in surrounding areas due to overcrowding and limited parking availability.
- Additional comments/concerns: _____

RE: CASE NUMBER GP-44277-2025 SWC of 17th St. & Madison Avenue - Minor General Plan Amendment - Mixed-Use to High Density Residential

Estimados Comisionados de Planificación y Zonificación,

Me dirijo a ustedes como vecino(a) y miembro de la comunidad preocupado(a) para expresar respetuosamente mi oposición a la propuesta de cambio de zonificación en la esquina suroeste de la Calle 17 y la Avenida Madison. Mi oposición se basa en varias preocupaciones que podrían afectar negativamente a la comunidad, tales como, entre otras:

- Riesgos de tráfico y seguridad peatonal debido al mayor volumen vehicular en calles ya angostas o concurridas.
- Visibilidad reducida en intersecciones y entradas, lo que aumenta el peligro para conductores, ciclistas y peatones.
- Preocupaciones sobre el acceso de emergencia, ya que calles congestionadas o bloqueadas podrían dificultar la respuesta rápida de bomberos, ambulancias y fuerzas del orden.
- Mayor riesgo de accidentes por residentes y visitantes circulando en busca de estacionamiento disponible.
- Vista obstruida y disminución del carácter estético de la zona debido a estructuras más altas.
- Mayor presión sobre la infraestructura local y los servicios públicos.
- Pérdida de privacidad para propiedades vecinas debido a la altura y densidad de los edificios.
- Incremento en los niveles de ruido y actividad que afectarán la calidad de vida de los residentes actuales.
- Posible disminución en el valor de las propiedades en áreas circundantes debido al hacinamiento y la disponibilidad limitada de estacionamiento.
- Comentarios/preocupaciones adicionales: NO ES TOY DE ACUERDO

Gracias por su consideración.

NEIGHBORHOOD MEETING COMMENTS

Date Held: August 7, 2025

Location: City Hall Room #190

Attendees: Staff: Erika Peterson; Applicant: Jose Salazar

Neighbors in attendance: Jennifer Ingram, Ruben Nevarez, Maribel Acosta, Loran Tyler, Kieth Dennis, Amanda DeLara, David Gamboa, Tom Pancrazi, Susan Bridgeman

Summary of Attendee's Comments Related to the Project:

- Staff explained the applicant's request to change the land use designation from Mixed Use to High Density Residential to pursue a rezoning of the site to High Density Residential.
- The applicant explained his intent is to develop a 12-unit multi-family development, 3 buildings with 4 units each.
- Many neighbors expressed concern for future and existing industrial and commercial uses and the impact that high density residential would have in the area and how the proposed development is not compatible with existing uses.
- Neighbors commented on how future CUP's may be denied because of the proximity to the proposed multi-family development.
- Neighbors expressed their concern with on-street parking and commented on the traffic, noise, parking, smells and deliveries in the area from existing industrial uses and nearby school and what was being proposed to help mitigate those impacts.
- Neighbors asked how many parking spaces would be provided for the entire development and how many were required.
- Neighbors asked if notification to the future residents of the development could be provided to notify them of the potential noise from existing businesses and operations.
- Neighbors inquired about the specifics on proposed development about what type of fencing, setbacks, price for each unit, and what the entire development would look like.
- A neighbor had a question about how the proposed development would impact property values.
- Many neighbors stated they would like to see commercial or light industrial development in the area instead of residential.

RE: CASE NUMBER GP-44277-2025 SWC of 17th St. & Madison Avenue - Minor General Plan Amendment - Mixed-Use to High Density Residential

Dear Planning & Zoning Commissioners,

I am writing as a concerned neighbor and community member to respectfully oppose the proposed rezoning of SWC of 17th St. & Madison Avenue. My opposition is based on a number of concerns that could negatively impact the community, such as but not limited to:

- Traffic and pedestrian safety risks due to higher vehicle volume on already narrow or busy streets.
- Reduced visibility at intersections and driveways, making it more hazardous for drivers, cyclists, and pedestrians.
- Emergency access concerns, as overcrowded or blocked streets could hinder fire trucks, ambulances, and law enforcement from responding quickly.
- Increased risk of accidents from residents and visitors circling the area to find available parking.
- Obstructed views and diminished aesthetic character of the area caused by taller structures.
- Greater strain on local infrastructure and public services.
- Reduced privacy for neighboring properties due to the height and density of the buildings.
- Increased noise and activity levels that will impact the quality of life for current residents.
- Potential decline in property values in surrounding areas due to overcrowding and limited parking availability.

➤ Additional comments/concerns: Safety Concerns

We are opposed to the proposed rezoning on Madison Ave and 17th Street based on increasing higher vehicle volume on busy streets and/or increasing risks of accidents from residents - visitors seeking parking.

On May 29, 2025, We had to file a police report due to damages from a "Hit and Run" on our F-150 Ford truck that was parked in front of our home on Maple Avenue, (Report # 25-33174 Officer: Landeras). Parking has been, and still is, a huge concern and issue.

Re: Case No. GP-44277-2025

Dear Ms. Peterson

The purpose of this letter is to object to the Minor General Plan Amendment referenced above, in its current form.

I have owned and occupied an office and shop at 1726 S. Maple Avenue, one block East of the referenced property, since 2011.

Prior to the development of Harvest Preparatory School, there were minimal traffic and parking issues in the vicinity. Since Harvest Preparatory has come to the area, traffic has become extremely dense, particularly at times when parents and busses are dropping students off or picking them up, or when special events are scheduled. Additionally, parking during the school day is congested with employees or students who drive to school. It is common to have the driveway into my business blocked or partially blocked by parked vehicles, or drivers awaiting a turn to drop students off. The development proposed in the Amendment cannot help but contribute to these problems.

Moreover, as the owner/manager of several apartment complexes, I find the standard of 1.5 allocated parking slots per unit to be totally unrealistic. Almost all of my units have at least two vehicles operated by unit occupants, and many have more than that number, not to mention temporary parking by delivery drivers and tenant guests.

In closing, I find the Amendment in its present form would contribute to problems that already exist in the general area, and cannot help but add an element of danger and difficulty to an already taxing situation. If you have any questions on the information provided or need additional information, do not hesitate to contact me at (928) 210-3223.
