**REPORT:**

The pavement sections of Catalina Drive from 4<sup>th</sup> Avenue to 32<sup>nd</sup> Street, and Palo Verde Street from Catalina Drive to Arizona Avenue, have been identified as areas of severe pavement deterioration, resulting in significant costs in time and funds to maintain the roads. The contract requires the Contractor to reconstruct the pavement structural section to City standards, remove and replace deteriorated sections of curb, gutter and sidewalk, install a traffic circle style median island to improve safety at the intersection of Catalina Drive and Palo Verde Street, adjust manhole and utility covers, and install new pavement marking and signage as called for in the project plans.

This work is expected to extend the useful life of this roadway section for an additional 30-35 years with proper maintenance.

All work is required to be completed within 100 working days of the Notice to Proceed.
