TITLE:

Cooperative Purchase Agreement: Electronic Control Devices

SUMMARY RECOMMENDATION:

Authorize the City Administrator to execute a cooperative purchase agreement in the amount of \$212,723.60 for the purchase of electronic control devices through a Axon (OMNIA Contract No. 151089 - Bid # 2021-20000047) (Susan Smith)

REPORT:

The Yuma Police Department (YPD) is requesting authorization to replace aging electronic control devices with 70 new Axon Taser 7 devices. Axon has structured a five-year plan for the purchase of these new devices to include warranty coverage for the duration of the contract. YPD issues these devices to field officers and detectives as a non-lethal force mitigation and de-escalation option.

Axon is YPD's current electronic control device provider and has been providing YPD devices since 2011. These devices have an intended service life of approximately five years due to internal components aging and wearing out. As of today, 78% of YPD's electronic control devices have surpassed this useful life and 12% are due to surpass the useful life in May 2021.

This five-year program is designed to cover the expected service life of the device. After the program is completed and paid for, the devices belong to the City of Yuma and may have potential trade-in value if the program is continued or renewed. The quote contains a trade-in discount of \$55,124.83, which pays for the first year. The City will pay \$53,178.21 each year for years two through four and \$53,188.97 for year five; for a total agreement cost of \$212,723.60.

All cartridges for field use, required training cartridges, holsters, rechargeable batteries, and additional training items are included in this program.
