- ☒ Resolution
- ☐ Ordinance - Introduction
- ☐ Ordinance - Adoption
- ☐ Public Hearing

TITLE:

Resolution of Support: Better Utilizing Investments to Leverage Development (BUILD) Transportation Discretionary Grants program

SUMMARY RECOMMENDATION:

Adopt a resolution supporting the application for a federal BUILD Transportation Discretionary Grants program, to complete the development of a Multi-Modal Transportation Center in downtown Yuma at the historic Hotel Del Sol. (Administration) (Philip Rodriguez)

REPORT:

City staff have collaborated with multiple departments/divisions and various local outside agencies to submit a grant application that reflect the best efforts of the City of Yuma and its needs. In July 2019, the City of Yuma (City) submitted its sixth grant application to the U.S. Department of Transportation (DOT) seeking funds to support the development of a Multi-Modal Transportation Center in downtown Yuma, under the federal BUILD Transportation Discretionary Grants program. The City's application made it all the way through the last office towards final approval last year. However, in October, the City was informed our application was not selected as one of the final awardees.

On February 18, 2020, DOT announced the availability of \$1 billion in Infrastructure Grant Funds through the BUILD grant program. BUILD funding can support roads, bridges, transit, rail, ports or intermodal transportation and will be awarded on a competitive basis to projects that have a significant local or regional impact. The City wishes to apply for this funding opportunity to support the ongoing efforts to develop a Multi-Modal Transportation Center at the Hotel Del Sol in downtown Yuma.

Multi-Modal Background History:

A 1995-2015 Countywide Transportation Study (Study) was prepared by local planning and transportation stakeholders to address the transportation needs for residents and visitors. The Study recognized the need for public transportation services within Yuma County, in addition to the existing private inter-city bus services and Amtrak rail services. Creating a safe and convenient place to accommodate rail passengers sparked the need for an additional feasibility study.

The Yuma Multi-Modal Transportation Study/Feasibility Study was completed in 2010. This study was conducted with input from private consultants, local transportation agencies, City and County governments, the general public, surrounding border communities and other community stakeholders to further evaluate how to improve transportation mobility throughout the community and region, raise the image and profile of transportation services, stimulate economic development and redevelopment in adjacent areas, and enhance the communities' local historic and architectural heritage. One of the conclusions of the Yuma Multi-Modal Transportation Study/Feasibility Study was that a Multi-Modal Transportation Center was needed for the Yuma region.

Out of 16 potential sites identified for a Center, the Hotel Del Sol in downtown Yuma was selected as the final site based on the criteria of location, the relationship to existing transportation services, the potential to complement the surrounding area, safety, cost-effectiveness, and land availability. The Hotel Del Sol currently serves as the Yuma County Area Transit's main transfer point for riders to walk downtown or connect to another route in the system.

The City supports transportation efforts to provide the community with alternate methods to get to and from school, work and daily events. The City further supports and recognizes the need to help create opportunities for economic revitalization in the region.

Transforming the historic Hotel Del Sol for use as a Multi-Modal Transportation Center will enhance transit access to the downtown area. The Multi-Modal Transportation Center will serve several modes of transportation, help revitalize the heart of the City and support the community's transportation needs. The project is also anticipated to promote private sector development by incorporating prime commercial space into the facility and surrounding properties.

FISCAL REQUIREMENTS	CITY FUNDS:	\$0.00	BUDGETED:	\$0.00
	STATE FUNDS:	\$0.00	AVAILABLE TO TRANSFER:	\$0.00
