III. ADOPTION OF ORDINANCES CONSENT AGENDA

Shelton expressed concern that only the initial property owners were notified of the annexation. He feels there needs to be an expansion of notification for all those who are affected by an annexation, especially since residents spoke out that they were not properly notified.

At the request of Councilmember Thomas, **Albers**, explained the notification process for annexations as follows:

- The City of Yuma follows State Statutes
 - The property is posted in three different locations visible to neighbors
 - A display add is published in the paper
 - Property owners who are within the annexation boundary are notified

Albers explained that an annexation only changes the taxes paid by the properties that are involved in the annexation. It does not make it any more intense than it was, nor does it change the General Plan. When researching what other communities have done, **Albers** found that most communities follow State statute requirements and some go beyond. **Mayor Nicholls** asked who pays for the notification including the newspaper article and the distribution of information. **Albers** replied there are no fees on their fee schedule for annexations and that the costs are borne by the City of Yuma. **Albers** continued stating there is an application fee for rezoning cases and a base fee with General Plan Amendments based on the number of acres to cover some of the costs in processing those requests. **Mayor Nicholls** opined, and **Albers** agreed, that there would be a costs associated for going above and beyond.

Motion (Knight /Miller): To adopt the Ordinances Consent Agenda as recommended.

Bushong displayed the following title:
